Reza Handzalah

ABOUT ME

Software Engineer
Since 2019

Curious about systems and programming languages.

EXPERIENCE

Mbiz.co.id (PT Brilliant eCommerce Berjaya)
Mar 2021 – Present | Software Engineer, Frontend Web

Maintaining the front end of websites that run Mbizmarket, a B2B e-commerce platform. Primarily working in Next.js and Phalcon (PHP) projects.

IDEMIA, Jakarta R&D Office
Aug 2019 – Mar 2021 | 1 yr 8 mos | Software Engineer, Validation/Tester

Working on internal Card Personalization System applications: Mobile Card Configurator (MCC) and Identity Card Configurator (ICC).

This role could loosely fit into other titles, e.g. System Analyst and SDET.

› Maintaining and upgrading existing systems as required
› Troubleshooting technical issues
› Collaborating with other RnD teams to resolve issues

Telkom Indonesia, Divisi Digital Service
Jan 2019 – Jun 2019 | 6 mos | Data Scientist Intern

Assigned to Video Analytics team. Reporting to DSC Business and Development manager.

› Pitching data science use cases to clients (B2B)
› Contributing to projects (dashboard design, document recognition with OCR, and object counting)

EDUCATION

Telkom University, Indonesia
Bachelor's Degree in Telecommunication Engineering cum laude | 2015 – 2019 | 3.65/4.00 GPA

SMA Al-Kautsar Bandar Lampung
IPA
2012 – 2015

ONLINE CREDENTIALS

HackerRank Certificates ↗

Skill certification tests by HackerRank. Competitive programming style problems.

| JavaScript (Basic) | Problem Solving (Basic) |

LinkedIn Skill Badges ?

Skill assessments feature by LinkedIn. Multiple choice questions.

| JavaScript | Rust | Python | PHP | Git | JSON |
| Object-Oriented Programming |

CURRENT LEARNING PROJECTS

Exercism ↗

My solutions to problems in Exercism's tracks. I have limited but non-zero experience in its mentoring platform (at the giving and the receiving end of a mentorship, once respectively).

I am enrolled to several language tracks, but I used it initially to learn Rust and want focus next in the Racket track.

| Rust track | Racket track | TypeScript track |
| Dart track | Go track |

Exploratory personal projects ↗

My ongoing personal projects.
